Left-Hand Patterns: SLOW SONGS

The lessons have shared Left-Hand patterns for medium or fast tempo songs. How do you create depth and rhythm with the left hand for slower songs? Let's explore a couple options.

1. **Play the Bass Note:** play a single bass note in the left hand.
Ex on a "C" chord, you would just play a single "C" note on the left hand

Hold down your left hand (whole note)

RH	C	/	/	/
LH	C			

Play your left hand note every time there is a slash (quarter note)

RH	C	/	/	/
LH	C	C	C	C

2. **Play the Bass Note in Octaves:** Play your bass note but with two different fingers. Ex a “C” chord would have your thumb and pinky finger on the left hand playing different “C”s. This gives more depth and bass to your sound

Hold your left-hand note (whole note)

RH	C	/	/	/
LH	C C			

Play your left hand note every time there is a slash (quarter note)

RH	C	/	/	/
LH	C C	C	C	C

3. **Play the “Bounce”** (lesson 18)

RH	C	/	/	/
LH	C			C
Count	1 +	2 +	3 +	4 +

Adding in the Fifth to Left Hand Patterns

4. **Add the Fifth of the Chord:** Play the bass note with your pinky and add in the fifth of the chord with your thumb

Hold your notes for the full chord:

RH	C	/	/	/
LH	G C			

Rock between the bass note and the fifth (the timing can vary depending on the song and your preference)

RH	C	/	/	/
LH	C	G	C	G

Rock between notes (quicker):

RH	C	/	/	/
LH	C G	C G	C G	C G
