

Slow Left-Hand Patterns Continued

Let's look at another left hand patterns for slower songs.

5. **Bass Octave Pattern:** The left hand plays the root note of the chord, followed by the fifth of the chord, and then repeats the root in a higher octave using the thumb. Finally, it plays the fifth again before starting the pattern over. This creates a slow and sustained background for your chords or melody.

In this example HC= "Higher C"

PATTERN IN 4/4 TIME:

RH	C	/	/	/
LH	C G	HC G	C G	HC G

PATTERN IN 3/4 TIME:

Note: We can still use this pattern in 3/4 time as well. We will simply repeat the high C and the G twice instead of going back down to the low C.

RH	C	/	/
LH	C G	HC G	HC G
